Laxman Aryal

IT Help Desk, Linux Support, Active Directory, on-premise or cloud server configuration, CI/CD configuration, Docker.

New Delhi, Delhi, India

Summary

DevOps Engineer | AWS & Azure Cloud | Linux System Administration | Infrastructure Automation

I'm a passionate DevOps professional with 3+ years of hands-on experience building and maintaining robust cloud infrastructure. I specialize in containerization (Docker), infrastructure-as-code (Terraform), and CI/CD pipeline automation.

CAREER TRANSITION: My journey began in IT infrastructure support and system troubleshooting, which gave me deep insights into real-world operational challenges. This foundation led me to embrace DevOps practices, where I now focus on automating infrastructure, implementing cloud solutions, and optimizing system reliability.

KEY EXPERTISE:

- Cloud Platforms: AWS (EC2, S3, RDS, VPC), Azure (VMs, App Services)
- Containerization & Orchestration: Docker, Kubernetes basics
- Infrastructure-as-Code: Terraform, CloudFormation
- CI/CD Pipelines: GitHub Actions, Jenkins fundamentals
- Linux System Administration: Advanced shell scripting, user/permission management
- Monitoring & Logging: Basic observability practices

I'm committed to continuous learning and staying updated with the latest DevOps trends. I actively work on automating deployment processes, reducing infrastructure costs, and improving system reliability.

Looking to collaborate on cloud infrastructure projects and contribute to building scalable, secure, and efficient systems.
